

Specy stepping up

Update Feb 8 - Its expected that Starspect will step up her work over the next few weeks to see how she handles it.

Gavin Beever explained that she is increasing in condition and fitness. She has a program of swimming, hill work and working on the deep sand with the track riders impressed with her attitude and form. She continues to eat up well and very much enjoys being paddocked with her mate Testa, Specy is the paddock boss but they do get along well. She is now going into the track four to five days a week and she handles it all very professionally. She is happy with life which hopefully translates to happiness for her and us on the track!! Maybe she just knows she is getting a Valentines card from her penpal Elvstroem!
