

Specy Time

May 15. Starspect is coming along and will soon return to racing. She's been making lots of friends at the Aquanita stables and has pleased staff. Tony will try and find some suitable races to ease her back in to racing without any expectation.

In other relatives news ... her uncle in England, Progreso will start at Dundalk in Ireland on Friday night in the 2yo maiden race. And her half brother Hilly has been running in the Sydney metrop races over staying distances of late but has not had success yet. And the Johar yearling bought in NZ was taken to Sydney. We look forward to seeing him when he's two. And the Val Royal three year old in NZ was a success in the trials and we suspect he may be going to HK.
